

JENSEN TEXTILE BUSY BEE US

HIGH SPEED PILLOWCASE FOLDER
FOR STANDARDIZED PRODUCTION

We develop for you!

Application

- Hand feed, high speed folder for Standard through King size pillowcases, the machine can give a max. of 2 lateral and 3 cross folds (incl. the pre-fold).
- The Pillowcase folder is the perfect match in a total line of folders, to finish your production need together with the JENTEX and FITTED SHEET FOLDER.

Features

- PLC microprocessor with up to 99 customized programs.
- The feeding position decides if you want the pillowcase to have a pre-fold or not, made via air blast over a template.
- The lateral folds are made by the well known folding principle: air blast between pinch-rolls.
- The cross folds are made by knife between rubberized pinch-rolls to optimise the flexibility.
- The machine has been mounted on casters for easy mobility.
- Bottom-up stacker with a minimum stacking capacity of 125 pieces.
- **High and low pressure to optimise the quality on different thickness of pillowcases.**
- Security covers up to the latest standards.
- Service friendly concept (easy access, no chains but drive belts, noiseless).

Options

- Second quality stacker
- Card board inserter, card board will be inserted in crossfold A
- CT 342 Touch Screen
- Arcnet for datacollection
- Printer for statistics
