Bypass One half fold One half fold Third French fold Quarter fold Fix dimension, or quarter fold

Busy-Bee w/Card Board

All Information below is based upon the Busy-Bee w/Card Board:

Air consumption

Min. 6 bar / 85 psi
13m³/h or 220 l/m
460 cf/h or 8 cf/m

Capacity Speed

3.5 sec./piece

Electrical connection Euro
3 × 400 V / 50 Hz
9.5 A / 7.5 kW

Electrical connection U.S.
3 × 230 V / 60 Hz
16.5 A / 7.5 kW

Shipping dimensions

1 × 20 foot container
G.w. 2400 kg / ~5300 lbs
N.w. 1800 kg / ~4000 lbs

Application

High speed, high quality folder with a variety of fold combinations.

Especially designed to fold Pillowcases, Pillowshams, tea towels, terry products, napkins, etc.

Free standing unit, but can also be connected to an automatic sewing system.

Control System

All machine operations are controlled from a microprocessor. The control system can easily be programmed on site to accommodate changing customer requirements. The control terminal memorizes up to 99 categories.

Capacity

- Max. working width 900 mm / 35½", Max. working length 1800 mm / 71"
- Min. working width 350 mm / 14" Min. working length 350 mm / 14"

Features

The textile is manually positioned onto the feeding conveyor by the operator. The feeding table can be adjusted, sideways in order to optimize the feeding of the product.

The lateral folds are made by blades over an adjustable template.

- Range: 140–260 mm / 5½–10¼".

One prefolder and two crossfolds fully controlled by timers flexible to create your required package size. The prefold is done via reversing conveyor, assisted by an air-blast.

The external crossfold station operates with the swing-arm principle. The folding plates are automatically adjusting to the different thickness of the fabric, in order to avoid unnecessary tension. An automatic press-unit is installed on the last crossfold station, in order to optimize the folding quality.

Automatic card board inserter installed on the pre-fold.

Card board sizes:

- Min. 120 × 120 mm / 4¾ × 4¾"
- Max. 255 × 255mm / 10 × 10"

The inserted boards will be "hidden" inside the product, optimising the finish folded appearance.

- ① Cardboard inserter
- ② 1st Crossfold section (Prefold)
- ③ Lateral fold
- ④ Turning unit
- ⑤ 2nd Crossfold section
- ⑥ 3rd Crossfold section
- ⑦ Double stacker
- ⑧ Outlet conveyor
- 1st and 2nd Quality stackers
- Quality sorting, up to 4 different
